NOTE 1: Models with Suffix .001, .002, .005 USE 316892.000 Burner Pipe  
Models with Suffix .006, USE 318288.000 Burner Pipe

NOTE 2: These models may have either a General or Robertshaw pilot burner. Part Numbers shown above are for Robertshaw Pilot Burner.  
For General parts, USE: 314455 Pilot Burner (stamped 26C 2877) with Orifice  
314455.001 Pilot Orifice ONLY

For replacement purposes these pilot burners may be interchanged. However, when ordering the pilot orifice separately the brand of pilot burner must be identified as the orifices will not interchange.

NOTE 3: Units manufactured after APRIL 1, 1981 require a thermal cut-off device in the thermocouple circuit. This device consists of the following parts:

1. Thermal Fuse Link (316852)
2. Connector Wire (316889)
3. Thermocouple Adaptor (316890)
